

Wrap-up visioning exercise

- Information Management Strategy Development -

Everyone
People

VISION

By 2030 WIO Countries are working and collaborating, sharing open access data through an integrated system that is accessible to support informed and efficient decision making

Vision

TO HAVE A UNIVERSAL (SECURE) STRATEGY BASED ON TRUST AND CONFIDENCE FOR EFFICIENT INFORMATION MANAGEMENT (VISION) (SEAMBA)*

RAFIKI GROUP

Well-resourced, secure & mandated IMS that all stakeholders contribute to & benefit from, that leads to greater public awareness & evidence-based decision making for an inclusive & sustainable Blue Economy & thriving marine & coastal ecosystems.

The information management strategy system is free, publicly, accessible, inclusive, transparent, reliable and interoperable. Decision-makers use the data and information in the system to base their decisions on.

THE NURU GROUP

AN IMS TO SUPPORT DEVELOPMENT & SUSTAINABILITY IN WIO

Vision
An inclusive, & transparent and adaptable Multi Sectoral Information Mgt Strategy
Chui

A Collaborative & Collective, shared Digitized & Automated data & Information Management System accessible to all Stakeholders. **VISION**
